PE COURSE LECTURES COMPLETE

It was very rewarding to re-learn Scientology basics after 3 years of cranking out on board. The lectures were interesting and very real.

I have had several wins in the last few days regarding these basics. Commodore [unclear] sure but the fact when he called this action!

I hereby give my permission to publish my letter or form in whole or in part or to summarize it's contents in any of the publications of the Church of Scientology of California or Operation and Transport Corporation.

1.) Scientology is an applied philosophy. The name Scientology is formed of the base words scio (knowledge) and logos (study), so Scientology is the study of knowledge or the study or source of knowing how to know.

li.) By examining how one is surviving in each area (dynamics), one gets a more analytical view of his overall survival. Then by taking the dynamics which are not on good shape and seeing what incomplete cycles remain in these dynamics & getting these cycles completed.

I, for instance, looked over the dynamics, realized I owed my sister a letter & determined to write it. This will improve my survival in life.

8.) Theta: awareness of awareness unit

Mind: a mechanism for solving
Problems of survival.

Body: the most part of a separate
being which is used to create
effects in the physical universe.

9.) On my part: I for a long time
did not bother confront the press.
then I read some data on the
subject (knowledge review) and was
a bit more able to handle. I
then took the responsibility for
the press handling & my knowledge
greatly increased and my outlet
of the press shot up.

10.) a) The scale or list of emotions
of humans & the tone arranged
in the order of high tone to
low tone and according to the
movement being made from one tone
to the next.

b.) It can be used to better handle
people, to get their agreement &

help on different notes...

- 11.) Service is vitally important. And it is service to rules. Rules should be used to the point where they inhibit service.
-

Service is what each of us is engaged in in one way or another. The use of

the cycle of action + completing cycles of action gives better service.

Service with a smile (S.M.C.) etc. The higher the S.M.C., the better the service.

Since the highest benefit to Production (= service); the Harmonic Emotion of Action, the Tone Scale best applied will yield better service.

S.M.C. - case. The example above will yield better service.

- 12.) You bet!
